CAREER OBJECTIVE

Computer Science undergraduate with healthcare data analytics internship experience and skills in Python, SQL, and Excel. Seeking a Data Analyst role to apply analytical thinking, data cleaning, visualization, and problem-solving skills to turn raw data into actionable insights.

WORK EXPERIENCE

Data Analytics Intern — Roche Diagnostics (Virtual) | Oct 2024 – Jun 2026

- Analyzed healthcare datasets to identify trends and patterns, supporting data-driven decision-making for internal stakeholders.
- Used Excel and data visualization techniques to translate raw data into clear, actionable reports.
- Collaborated remotely with the team to interpret findings and present results in an accessible format.

TECHNICAL SKILLS

Data & Analytics: Data Cleaning, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization, Healthcare Data Analysis, SQL, MySQL, Advanced Excel

Programming: Python, Java, C, C++, HTML, CSS, JavaScript

Libraries & Tools: Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook / Google Colab, Power BI, Tableau, GitHub, ChatGPT, Gemini

AI Application Skills: Chatbot Design, Prompt Design, Web UI Development

PROJECTS

AI Study Buddy — Simple AI Study Buddy Chatbot

- Designed a student-focused chatbot concept to help explain academic topics and support self-directed learning.
- Built an interactive chat interface for submitting questions and displaying assistant responses; describe the actual AI/API integration used in your implementation.

OpenFDA Adverse Event Analysis

- Analyzed publicly available FDA adverse-event reports to explore report patterns by product, event, and time period.
- Applied data-cleaning, exploratory-analysis, and visualization approaches to communicate findings; reports do not prove a product caused an event.

COVID-19 CT Image Segmentation using Arithmetic Optimization Algorithm (AOA) | Apr 2025 – Jul 2025

- Preprocessed and analyzed CT scan image data, comparing AOA against four other optimization algorithms to evaluate segmentation performance.
- Benchmarked model outputs and reported a 6% segmentation-accuracy improvement over CLOA.

Controlled Pet Treat Dispenser (IoT) | Jan 2025 – May 2025

- Developed a timer-based automated feeding system with servo-controlled dispensing logic.

TRAINING & CERTIFICATIONS

Associate Cloud Engineer — Google (Virtual) | May 2026 – Jun 2026

Hands-on training in deploying applications, monitoring operations, and managing enterprise cloud projects.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science & Engineering | 2022 – 2026

Saveetha School of Engineering

ADDITIONAL EXPERIENCE

- Founder and Manager of Melobite, a food-court restaurant venture in Chennai; led operations, coordination, and business decisions.
- Organized and coordinated college events and technical symposiums.
